WHY CHOOSE SEV7N

MCQs & Assessment Objective Style Questions:

Sharpen your understanding and test your knowledge through our rigorously designed question sets that simulate real exam conditions.

Power Points and Concept Videos:

Let learning be fun and interactive through visual aides that simplify even the most complex topics.

Full-Length Mock Papers:

Practicing under exam-like conditions can boost your confidence. Our mock papers are your perfect rehearsal before the grand performance.

Approach to Learning Videos:

How do you absorb what you learn? Our unique 'Approach to Learning' videos give you effective study hacks, time-management tips, and exam strategies.

Explanatory Videos:

Master the art of articulation. Learn how to frame your answers to fetch maximum marks through our 'How to Write a Good Answer' videos.

An Adaptive Learning Environment:

We meet you where you are in your academic journey and tailor our teaching methods to complement your unique learning style.

THE METHOD BEHIND THE MASTERY: OUR APPROACH

Personalized Learning Plans

We don't follow a standard playbook. Your lessons are tailored to suit your pace and learning style.

Applied Learning

We go beyond the syllabus. Learn how to use theoretical knowledge in real-world applications.

Assessment-Aligned Teaching

We know what examiners look for. Our teaching methods are synced with assessment objectives and criteria, ensuring you are always a step ahead.

#SUCCESS STORIES

" We were considering shifting from Cbse to IB. The practical guidance and advice by Shailey was most valuable. He gave us realistic advice that helped us evaluate our situation better. He went an extra mile to lend clarity. "

Shubra Puri

IBDP 2022 Batch

And we are still counting

" I have recently joined the coaching. I take economics and psychology, both teachers help me so much. I can definitely say I have improved drastically in economics after joining these classes. And my interest in psychology could never be higher than it is now. Thank you Mr. Shailey and team. "

SEE HOW IT WORKS

- Get entire course at your screen

The screenshot shows a course interface for '1.1.1 Rounding of Decimal Places'. On the left, a sidebar lists the course structure under 'Numbers and Algebra AA HL', including '1.0 Raise an Inquiry' and '2.1.1 Rounding Numbers Toolkit'. The main content area features a lesson titled 'Rounding of Decimal Places' with a 'View PDF' button. A text box explains the lesson's purpose: 'This lesson offers information for everyone, including AA and AI students, professionals dealing with financial data, and those just interested in the specifics of numerical representation. Explore the realm of accuracy by reading our in-depth article on rounding decimal numbers. Look at the procedures and guidelines for rounding decimals to the next whole integer, certain decimal places. Discover real-world examples and detailed explanations that demystify the procedure and assist you in choosing the appropriate rounding method. Improve your numeracy and develop the self-assurance to use decimal numbers correctly in everyday computations and in real-world situations.' To the right, a 'Rounding Decimals' box provides instructions: 'Find your place and look next door. 5 or greater, add one more. All digits in front, stay the same. All digits behind, zero's the name.' Below this, an example shows '1.362' being rounded to '1.360' because the digit '6' is at the hundredths place, and the next digit is '2', which is less than 5. A 'Complete and Continue' button is visible in the top right corner.

- Complete course at your pace

Course Curriculum

1	1.0 Raise an Inquiry	1 lesson(s)
2	1.1 Rounding Numbers Toolkit	15 lesson(s)
3	1.2 Arithmetic Sequence and Series (15)	4 lesson(s)
4	1.3 Geometric Sequence (15)	7 lesson(s)
5	1.4 Financial Application(10)	3 lesson(s)
6	1.5 Laws of Exponents (15)	3 lesson(s)
7	1.6 Laws of Logarithms (20)	4 lesson(s)
8	UNTITLED CHAPTER	1 lesson(s)

IGCSE SUBJECTS

Languages

Develops linguistic abilities and communication skills in a variety of languages.

Sciences

Encourages a systematic approach to scientific study, fostering critical and creative thinking.

Mathematics

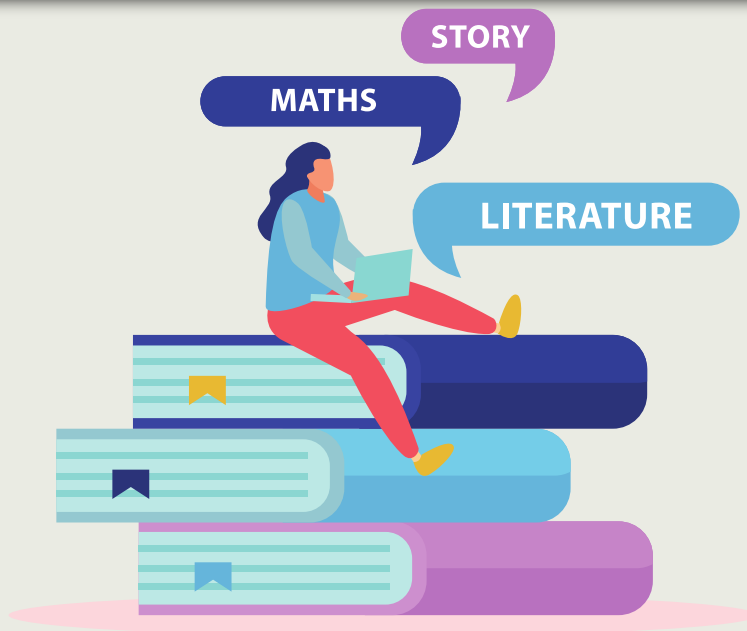

Builds a strong foundation in mathematical concepts and problem-solving skills.

+91-9717229659
+91-7303473477

info@sev7n.co.in

IGCSE SUBJECTS (CONTINUED)

Humanities and Social Sciences

Offers insight into cultural and historical perspectives, encouraging global awareness.

Arts and Design

Nurtures creativity and expression through visual and performing arts, as well as design and technology.

Vocational and Technical

Provides practical skills and knowledge in vocational and technical subjects, bridging the gap to industry and higher education.

IGCSE ASSESSMENT METHODS

01

Varied Assessment

Utilizes a range of assessment techniques including written exams, oral and listening tests, coursework, and practical assessments.

02 Grading System

Employs a grading scale from A* to G, with a U as ungraded, ensuring a global standard for academic achievement.

03

Qualification Recognition

IGCSE qualifications are recognized by academic institutions and employers around the world as evidence of academic ability.

+91-9717229659
+91-7303473477

info@sev7n.co.in

PREPARING FOR FUTURE EDUCATION

1

University Preparation

Provides a solid foundation for further education, including preparation for A-Levels and other pre-university qualifications.

2

Skill Development

Develops transferable skills such as critical thinking, problem-solving, and independent research.

3

Global Opportunities

Opens doors to higher education and professional opportunities worldwide.
